02 Individual schedules

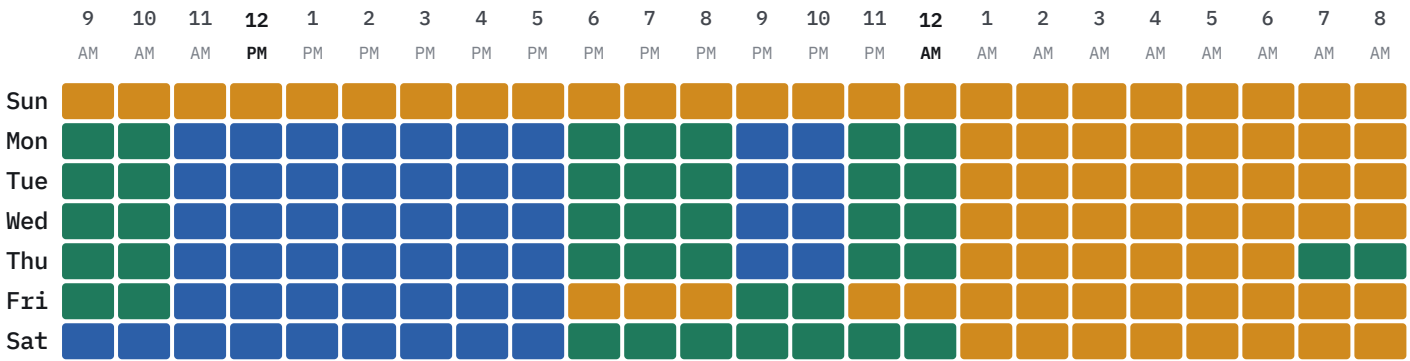

Exact clock-in and clock-out for every person, every day. A shift written as 9 PM – 9 AM starts on the day named and ends the following morning.

05 Handover points

Seven moments each weekday where the desk changes hands, eight on Friday. Every handover needs a written note in the shared log: open conversations, pending deliveries, anything a buyer is waiting on.

TIME	LEAVING	TAKING OVER
7 AM	—	Amrah joins the night CSR (Friday only)
9 AM	Nadir or Hasnain ends the night	Amrah and Zaheen open the day together
11 AM	—	Ezan joins (9 AM on Saturday and Sunday)
5 PM	Amrah leaves (except Friday)	Hasnain joins

TIME	LEAVING	TAKING OVER
6 PM	Zaheen leaves, and Amrah on Friday	Ezan and Hasnain hold
9 PM	—	Nadir joins for the night
11 PM	Ezan leaves (9 PM on Saturday and Sunday)	Hasnain and Nadir hold
1 AM	Hasnain leaves	Nadir alone until 9 AM

06 **Standing rules**

- 01 **Nadir's rest window is protected.**

Friday 9 AM to Saturday 9 PM. It is the only rest in a 72 hour week. It does not get borrowed for emergencies, deliveries, or busy weekends. If it is broken once, it will be broken every week.
- 02 **Sunday off is fixed for Amrah, Zaheen and Hasnain.**

All three rest on Sunday. This is why Sunday runs one deep and it is an accepted cost, not an oversight.
- 03 **Ezan never works past 11 PM and never sleeps away from home.**

His shift window is 9 AM to 11 PM. No night shifts, no overnight cover, no exceptions.
- 04 **Amrah's long day stays on Friday, 7 AM to 6 PM.**

Never on Sunday, never starting before 7 AM. Friday is chosen because Hasnain is on nights that day, so her 6 PM finish adds a person instead of making a fourth in a block that already has three.
- 05 **Only Nadir and Hasnain can work 1 AM to 9 AM.**

If either is unavailable, escalate to Ash before the shift, not during it. Nobody else in XStudioz can cover that block.
- 06 **Every handover is written, not verbal.**

Seven handovers a day across five people. Anything not written down is lost.
- 07 **Minimum 8 hours between any two shifts.**

Hasnain's Saturday sits exactly at this floor. Do not schedule below it.

07 **Known risks**

These are structural, not oversights. They are the cost of covering 168 hours with five people under the constraints given, and they should be visible to whoever runs this desk.

CRITICAL · NO MITIGATION AVAILABLE

Midnight to 9 AM runs on one person, every day

Nadir six nights, Hasnain the seventh. Fifty six hours a week with no second body and no substitute. In US Eastern this is 3 PM to midnight, the highest intent ordering window on Fiverr. If either man is unavailable, that block goes dark and stays dark until he returns.

CRITICAL · NO BENCH

Zero absence buffer

Five people covering 168 hours means the roster is exactly full. There is no spare capacity anywhere in the week. One unplanned absence puts a block to one person or to zero.

ACCEPTED · COST OF THREE SUNDAY OFFS

Sunday runs one deep for 23 of 24 hours

Nadir until 9 AM, Ezan until 9 PM, Nadir again after. Two men hold an entire day alone because Amrah, Zaheen and Hasnain all rest on the same day.

ACCEPTED · COST OF NADIR'S REST DAY

Friday 6 PM to 9 PM is Ezan alone

Hasnain moves to a 9 PM night start on Friday and Amrah finishes at 6 PM, which leaves three hours with one person. In US Eastern this is 9 AM to 12 PM Friday, a live window. Ezan then leaves at 11 PM while Nadir is off, so Friday 11 PM to midnight is also single cover. Extending Amrah to 9 PM would close the evening gap, but 6 PM is her stated limit.

WATCH · HUMAN LOAD

Two tight turnarounds

Hasnain finishes Saturday 9 AM and returns Saturday 5 PM, exactly 8 hours. Ezan finishes Saturday 9 PM and returns Sunday 9 AM, exactly 12 hours. These are the first two points that will produce complaints or slipped response times.

08 Before this goes live

Hasnain has to agree to Friday 9 PM to Saturday 9 AM

He has never been asked. The entire structure hangs off that one shift. If he declines, Nadir loses his only rest day and works all seven nights at 84 hours. Get the yes before the roster is published, not after.

Zaheen's hours have changed

Zaheen works 9 AM to 6 PM, a 9 hour day, six days a week. This replaces the earlier 8 AM start, which had put a second person on the final hour of every night shift.

Also confirm: Amrah accepts Friday 7 AM to 6 PM as her long day. Nadir accepts Friday to Saturday as his rest window rather than Sunday. Ezan accepts 11 AM to 11 PM on weekdays and 9 AM to 9 PM on weekends.

HASNAIN · FRIDAY NIGHT Agreed / date	NADIR · REST WINDOW Agreed / date	ZAHEEN · 9 AM – 6 PM Agreed / date
AMRAH · FRIDAY 7 AM – 6 PM Agreed / date	EZAN · SHIFT HOURS Agreed / date	APPROVED BY ASH Signature / date

09 Next decision

One night capable operator changes everything in this document.

Not another day shift CSR. Amrah and Zaheen have now stretched as far as they can, and every hour they added landed on the day. What XStudioz needs is a sixth person who can work 1 AM to 8 AM.

With that one person: the night block goes two deep for the first time, Sunday goes two deep, Nadir drops from 72 hours to 48 with a clean weekly off, Hasnain never touches a night shift again, Friday evening stops running on one

man, Ezan can take a rest day, and the desk gains a genuine backup instead of running on two men who cannot be replaced.

With 20 plus designers and multi shift CSR teams across the other profiles, this is a reassignment rather than a salary. It is the highest leverage operational move available on XStudioz right now.

Before tuning anything further, pull the data

Export XStudioz order and inbox message timestamps for the last 60 days and bucket them by PKT hour. That tells us whether the three deep blocks belong where they sit now, or whether they should slide toward the seven hours still running on one man. Everything above this line is structure. Everything below it should be driven by demand.
